TUNNEL SADD ARIANA

CORPORATE ENVIRONMENT POLICY

Tunnel Sadd Ariana will effectively and responsibly avoid, minimize, mitigate, and compensate for environmental impacts, through the implementation of plans, procedures, and an environmental management system. This will encompass:

- plans for preservation of water and air quality, biodiversity, and responsible construction and site rehabilitation;
- sustainable and efficient use of resources and waste management;
- promotion of a culture of environmental stewardship by employees, contractors, and neighbouring communities; and
- inspections, audits, monitoring of impacts, and adaptive management in response to unanticipated effects.

Ali Mousavi Rahimi

Managing Director
